

# PARDUBICE REGION

## ABOUT REGION

The Pardubice Region is located in Eastern Bohemia; a short part of its boundary in the Orlické Mountains lies along the state boundary with Poland. It neighbors with the regions Hradec Králové, Central Bohemia, South Bohemia, South Moravia, Olomouc and Vysočina. The region is divided into four districts: Chrudim, Pardubice, Svitavy and Ústí nad Orlicí. Its area is 4,518 km<sup>2</sup> (valid data taken on January 1, 2006) or 5.7 % of the national territory. The region is the 10th largest in the country. On December 31, 2006 there were 507,751 inhabitants which make it the 12th most populated among regions of the Czech Republic. There are 452 communities (7.2 % of all communities in the country, 6th place among all regions). The city of Pardubice, the regional capital, has a population of 88,316. There are 17 towns and cities with a population exceeding 5,000 in the region.

Large protected landscape areas, Orlické hory, Železné hory and a part of Žďárské vrchy, are located in the territory of the Pardubice region and they are frequently visited by tourists. The vicinity of reservoir Seč is most visited in summer; otherwise lots of facilities serve mainly for purposes of congressional tourism. Agricultural tourism, focusing on horse breeding, is also very popular in the Pardubice region. Velká pardubická Steeplechase and Zlatá přilba (Golden Helmet) dirt track race are sporting events of international importance, taking place in Pardubice every year. The historic downtowns in Pardubice, Moravská Třebová and Litomyšl were declared urban sanctuaries. The castle in Litomyšl is the only landmark in the region placed on UNESCO list of world heritage. In spite of this, the region is lagging behind all others in some

areas of tourism, i.e. number of accommodation facilities, their capacities and the average number of nights a visitor spends in the region.

Univerzita Pardubice, with five colleges, is the largest university in the region. The colleges of transportation and chemical technologies are focused on traditional disciplines and their importance exceeds the regional level. The faculty of restoration in Litomyšl is the only one in the country. Research and development expenses in 2004 reached Kč 2,700 per capita in the Pardubice Region with 0.46 % of local employees working in research and development field – both parameters put the region in 4th place among all regions in the country. It means actually Kč 1,346 million were spent (5th place in the Czech Republic) and 2,310 people were working in R&D (6th place in Czech Republic).

Farming has a more than average share in the regional GDP, mainly as plant production is concerned. Electrotechnics, chemistry and machinery firms are the most important employers in the region. Industrial plastics and nanotechnology clusters have been created in the region. At present, CzechInvest agency is studying possibilities for building clusters in the areas of tool making and electrotechnics.

The potential of the region lies in: the tradition of the chemical industry, the focus of local universities on local lines of business, the location of the city of Pardubice on I. and III. railway corridors, the finishing of the motorway D11 and the building of a new speed communication further on, development of agro - tourism, natural and cultural landmarks and eventual attempts to extend transportation by riverboats.

## BASIC DATA

Land Area.....4,518 km<sup>2</sup>

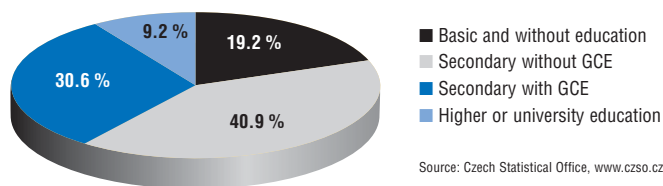

## POPULATION

**Total** .....**507,751**  
 Percentage in the total population of Czech Republic (%).....4.9  
 Population density (persons/km<sup>2</sup>).....112  
 Average work force .....265,950  
 Number of job seekers .....19,369

## NUMBER OF ECONOMIC UNITS ACCORDING TO PREVAILING ACTIVITY

**Total** .....**105,304**  
 Industry .....15,864  
 Construction .....12,833  
 Agriculture & forestry .....8,058  
 Services .....68,594
