Supplier Database
Find Your Suppliers in the Czech Republic
Sectoral Database of Suppliers

CzechInvest connects foreign investors with suppliers from the Czech Republic. Visit the Supplier Database, an efficient tool for searching suppliers and potential business partners in the Czech Republic by sector characteristics, key technologies and location, as well as fulltext search. Suppliers are classified into ten key sectors and further sorted into subcategories. Registration and use of the database are free of charge.
What Does the Database Contain?

The database contains standardised profiles of more than 3,400 manufacturing and ICT companies from all over the Czech Republic. The most dominant sectors are electronics and electrical engineering, automotive and ICT. Also important is the aerospace sector, which has a long tradition in the Czech Republic.
Supplier Profile

+ The supplier profile provides a clear source of information regarding Czech supplier companies
+ The database enables you to compare a selected supplier with its competition
Who Uses the Database?

Investors and companies from all over the globe use the database to find suppliers that best fit their needs and to get an overview of supplier status concerning a specific sector.

Our database is used by global companies such as BMW, Boeing, Cisco, Microsoft, IKEA, DHL, Nikon, KPMG, Siemens, Jaguar Land Rover, and many others.

Database accesses by country in 2016*

* not including the Czech Republic
