

# HR Point

The right place for personnel specialists!

[www.czechinvest.org](http://www.czechinvest.org)

## Who we are

HR Point was established by combining the HR Club and Seminar of Personnel Specialists events organised in the regions by CzechInvest in cooperation with the Association for Foreign Investment. The events have a tradition dating back many years and bring together personnel specialists from manufacturing and IT companies and shared-services centres.

The aim of this seminar is to share new developments and initiatives in the HR field together with discussions of current topics. In connection with each event, HR Point cooperates with a recruitment agency, which gives a presentation on current topics in the area of human resources.

# Our services

You can look forward to meeting with HR professionals in the given region and interesting workshops held in cooperation with recruitment agencies. The particular places and times are continually updated on the website. Entrance to planned events is free of charge following prior registration. More information on HR Point events is available on the website at [www.hr-point.cz](http://www.hr-point.cz).

total of 13 events in the area  
of HR per semester

in cooperation with renowned  
recruitment agencies

always twice a year  
in spring and autumn

For me, HR Point is primarily a platform that enables representatives of foreign investors to share and address common topics involving new trends in HR, recruitment of new employees, corporate branding and labour law.
